Danger at Washington-Look Out. om correspondence dated at Baltimore April 3, for the New York Tribune ! April 3, for the New York Tribune.]

A painful suspicion has seized on the public mind in Washington, and it has extended to Baltimore in some degree, that the occupation of the Federal Capital is actually entertained by Jeff. Davis, who is all-supreme in his military power. The question is asked, what is that archemation, Ben. McChilough, doing in Virginia at this juncture? Why has so much pains been taken to create a Secession sentiment along the line of railway from Wilmington in North Carolina to Alexandria in Virginia? Why are the rebels so cager for the Virginia Convention to precipitate an ordinance of secession upon the people of that State? What does the recent belligerent card of H. A. erent eard of H. A. Wise & Co. to the men of their kidney in the Eastern conuties of Virginia mem? Why are the Richmond Whig, the Lexington Valley Star, and other Virginia Union newspapers bought up and made to fly the Secession flag? The answer to these and a hundred other kindred questions is, that the invasion and seizure of Washington by the rebel Government is seriously contemplated, and, what is worse, is actually practicable. They say that nothing is easier for Jeff Davis than to land 5,000 troups at Washington, and to make them the herald of their own arrival by the seizure of the telegraph and the railroads, and by the sympathies of the section through which they rim.

The public dorm is not for nothing, in my judgment. It is increased by the with-drawal of any portion of the Federal troops at the Capital, for the people neither there nor here have any too great confidence in or fice have any too great confidence in the initial in such an energency. The Express' money article, in

Upon being refused, he offered to take \$2,000,000 of convertable offered to take \$2,000,000 of convertable notes at one-eighth premium, which was declined on the ground that no plates were ready. Not to be put off, he offered to take \$2,000,000 for one year, and these to be exchanged for two year notes as soon as they could be prepared, which was also ceclined. The Secretary declared "he did not won the money." The Secretary not want the money." The Secretary added, that when he had a bean to sell, he must re-advertise. The unsuccessful bidder finally left, resolving to take the law of the Secretary, which he is sure, to use his own words, will "bring the bonds."

TERRIERS .- A combat took place in St Louis on Sunday between a Brazillian tiger and two fierce terrier dogs. Strange to say, the latter were victors and the tiger vas slain. The fight is thus described by the Democrat of that city:

the Democrat of that city:

The door was raised, and they flow savagely in, while at the same instant the tiger sprang, bounding to the ceiling, and coming down upon the invaders. Their blood and fur flow territically, but they at once extriented themselves, and both darted furiously toward the foc. Sir tiger received them with murderous strokes of his fore paw, nearly scalping them, and ceived them with infiniterous strokes of his fore paw, nearly scalping them, and tearing oil ribbons of flesh and hite at each blow. He thally seized the sancy terrier's jaws in his mouth, and was erunching them shockingly, when the sint planted her incisors deep in his throat. Very reinctantly, he was thus forced to release the terrier, but the shut desperately refused to relinquish her hold. His utmost efforts to shake or tear her oil were unavailing, the terrier in the mean-while having pounced upon his back and were inavailing, the terrier in the mean-while having pounced upon his back and being engaged with the utmost enthusi-asit in gnawing through his neck from the top. It became plain that the poor tiger was wersted and would probably be killed, but his owner dared not attempt to draw off the dogs. It was proposed to shoot them, but this would only have transferred the war from the cage to the crowd.— Stumptf, however, removed the dogs. Their victim then rose, staggered a few steps,

[From the Southern Kentneky Register.] We give elsewhere, to-day, the pla organization and the resolutions adop of organization and the resolutions adopted by the Convention of the Southern fights party held at Frankfort on the 20th nst. The organization is thorough and complete, and if carried out as hald down, must result is good to the cause. We are nour hearts gratified that this step has even taken. The triends of the South and the Constitution as our future and of

States will ever return to the fold, even under such guarantees as these; but we do assert that K catucky should put up with nothing short of what would be satisfartery and just to the most ultra of these States. If we are to link our destiny with Abolitionists and agrarians and the devotees of "free love," while a glorious Republic of States with which we are identified by every tie of interest and destiny in unfurling its flag to the world; if we are to stay and live in communion with States whose leading spirits have denounced us as worthy associates for thieves, nurderers, and cut-throats, it ought to be upon comilitious that will now and forever insure us against their despotic rule.

Kentneky is a sovereign Sinte, and since the Union into which she entered is already

oken up and destroyed, and that, too, by States that clauser for still further encroschments, she has an undoubted right to dicate the terms on which her allegiance to
the pretended Government shall be based.
She has a right still to contend for the
principles of that Coustinution which our
tathers made for us, and If she ran't get
expressurance that these principles will
be returned to and maintained by those
States which have so ruthlessly violated
them, it is not only her privilege, but her
highest duty, to abundon them, and link
her fortunes with a nation of kindred sentiments and kindred institutions.

It is no time for Kentuckians to be mealy

nouthed. Abolitionism is insidiously do-ng its work right here in our own State and among our own people, under the specious guise of love for the Union, and many mun will be aleccived and led off by he clamor and talse coloring of these Union-shriekers, until they will tind them-ically a condition to surrender the last restige of their liberties. This battle will be furre and hot and we must need it the be fierce and hot, and we must meet it as men who love their rights and are ready to sacrifice everything in their maintenance.

Men are to be met in this struggle who first planted themselves upon Crittenden's propositions and avowed their determination to submit to nothing less, but who are most backing down from that, not to accept any proposition coming from the Northform that ourter—but to hold out still from that ourter—but to hold out still c fierce and hot, and we must meet it as or no olive branch has ever yet emanated from that quarter—but to hold out still urther concessions, and beg—yes, bey—a tomineering Abolition party to grant the coon. Humiliating as the spectacle is, our way eyes have seen, and our own ears have ally heard it from the lips of Kentuckians. The honor, as well as the reghts, of our galmit old State is at stake in this strungle, and we must come to the work in carried. ad we must come to the work in ear Among our opponents, selfish and designing men will not be wanting—men who would self their country for the miserably led it in the mane of liberty. What Is the Issue? The election for twelve delegates to the Border Slave State Conference, which is to be held on the 4th of next month, is one o some importance as indicating the position of the people of Kentucky at this time; and that this position may be defined, it is necessary that the issue between the parties may be fully known to the voters of the

Commonwealth. But the Submission leaders do not in tend, unless absolutely driven to the wall, to let the people know their purposes, their

plans, or their hopes. Concealing these beneath delusive cries for the "American Eagle," the "Stars and Stripes," and the "glorious Union," they will not grasp the rugged questions presented by the momentous occurrences of the last six months, hoping thus to cheat the people into the support of the present Administration, whose perfidy is attested by an hundred acts of bad faith, and whose hostility to the South and to slavery is witnessed by the whole tenor of their

We give below the platform on which the Southern Rights men are making this canvass. It was adopted by the State Conventlou of Southern Rights mon, at Frankfort, on the 20th of March:

Resolved, 1. That in the opinion of this Convention it is the earnest desire of the people of Kentucky that the Union of all the States should be restored and the Contederacy reconstructed, and to that end it is our deliberate conviction that there should be amendments to the Federal Constitution, videar and complete, covering and providing for all the disturbing subjects growing out of African slavery.

2. That the preservation of peace letween the Federal Government as it now exists and the Southern Coulederacy, is indispensable to the resteration of the Union; that we implore both Governments to abstant from collision or war in any form; that any attempt at coercion by the Federal Administration against the Southern Confederacy, by roflecting the recurrence for the enforcement of the Federal laws, or subjugation, would frustrate all hopes of restoring our Union; and we emphatically amonute that if such coercion is attempted by the Federal Government, we will make the cause and destiny of the Southern Confederacy our own.

3. That we recommend to the Federal Government to withdraw its tracas from

ern Confederacy our own.

3. That we recommend to the Federal
Government to withdraw its troops from
the forts now occupied within the Terri,

Confederacy.

4. That the geographical position of Kentucky makes desirable the co-operation of all the Border Slave States, and as it has been suggested by the Conventions of Virginla and Missouri, now in session, that there be held a Conference of Slave States, we recommend to the present Legislature to invite such Convention for the purpose of devising, if possible, some plan of reconstructing our Union, and that delegates to such Convention be elected by the legally qualified voters of each Congressional District in the State.

5. That it is our defiberate opinion that guarantees for the protection and safety of slave property, and the equal rights of the Slave States and their people, less clear and defined than the Crittenden propositions with the Powell amendment thereto, ought not and will not be accepted by the reconstructions of Sentences.

Five of the seven are ready to become Free States as rapidly as their truly momentum slower interests are adjusted and ought not and will not be accepted by the

people of Kentucky.

6. That the clause submitted to the Peace Congress in the original Gutbric proposition, denying the right of free negroes to vote for any mid all Federal officers, we regard as essential to our peace and as a set-tlement of a disturbing and most danger-ous question, and that the right of transit with slaves through all the States and Ter-ritories ought to be guaranteed by consti-tuilonal amendments

one question, and that the right of transit with slaves through all the States and Teritories ought to be guaranteed by constitution and amendments.

7. That the Franklin proposition, agreed apon by the Prace Conference recently held in Washincton, is regarded as a surrender of many of the rights we now have, and ignally fails of a settlement of our national difficulties.

8. That we are utterly opposed to all propositions or plans for the formation of diddle Confederacy.

9. That in consideration of the deep intries to the commercial and other interests of the whole country, consequent upon our oblitical troubles, the plan for the restoration of the Union should receive the protupt of speedy action of the States.

11. That if all efforts for settlement of the difficulties in which we are involved shall tail, we recommend to the Legislature to provide for the election of delegates to a State Convention, to be held as soon thereafter as praetleable, to decide upon what position Kentucky shall thereafter occupy, and that the final action of said Convention shall be submitted for approval or disapproval, to the voters of Kentucky.

These resolutions are clear and explicit.

We all know that the Union wan of the Border Slaveholding States, WITH MR. Confederate States and the Northern Union—between the former with protection to their institutions and the latter with negro emancipation and negro equality.

The Submission leaders, in the caucus that put their ticket in the field for the Border State Conference, passed a resolntion "recommending" to "such delegates as may be elected what are known as the Chitten Der amendments as the basis of such amendments as will be acceptable to such amendments as will be acceptable to

This resolution either means that the That will be acceptable to Kentucky, or it docs not mean it.

If the first, it is of itself a condempation of Messes, Morenzau, Wickliffe, Guill-RIE, and Bult, who, he the Peace Conference, agreed to a plan for settlement that would secure to the South much less than the little demanded in the CHITTENDEN proposition.

It the second, it is a fraud, by which it was hoped the people might be cheated into supporting the Submission candidates.

i.ady l'ike, Cin; Mais, N (l; Eugene, Henderson; J Il Baldwin, Nashville;

The River, under the influence of the continued rains, is rising again, with eight feet one inch water in the canal, last evening, by the mark. On the falls there were six feet one inch water, a rise of four inches at the head of the falls in the previous twenty-four hours. At Porland, the rise was fully twelve inches. The weather has been very rainy for eighteen hours, with an attempt to clear up last evening. At Concinuati the river had risen twelve inches, with almost roustant rains yesterday, and a big rise may be looked for. At Pittsburg and Parkersburg it was raining hard on Sunday, with a rising river at the latter point, and we expect to hear of a heavy rise in the Kanawha.

The steamer H. R. W. Hill, a Southern boat with a Southern crew, and sailing under a Southern flag, chanced to be at the port of 8t. Louis when this complimentary demonshation towards D. G. The officers of the Hill, knowing the worth of, and wishing to testify to their appreciation of the gentlemanthey, too, rigged their boat and moved off with the procession, carrying at their masthead, and id every other vessel represented, the flag of their country. OFFICE LOUISVILLE COURIER, MONDAY EVE., April 5, 1861.

OFFICE LOUISVILLE COURTER, 1
MONDAY EVE., April 8, 1861. 1

There was no new feature visible in the money market to-day. The demand for money continues moderate, and in most cases, where first-class paper is offered, it is met by the hanks. The market yet exhibits some signs of stringency, and all paper that is not considered No. 1 is very troublesome to negotlate. Uncurrent money is unchanged.

The general market remains quiet, with but very little doing. Flour 1s firm, with a small demand for the home trade. The sales lo-day were about 300 bills at \$5 to \$6 for extra to cholee family brands. Wheat is quiet but firm. The receipts are hardly equal to the demand, and all that arrives meets with a ready sale at \$1 to \$1 lo for prime real and white. Corn remains dull, the demand being exceedingly small fir feeding, and the sales are limited at 45c for car and 40 to 51c for shelled, sacks included. Only are unchanged. Whisky has declined, with sales at 15 fee. There is no change to note in groceries.

Provisions to-day were quiet, the demand for mess pork being very light, with sales of only 50 bibls city packed at \$1. Buyers are determined to hold off, while holders are tirm, and as they are not disposed to press sales there is but little doing. The prospects favor a large demand, and this with the light stock, induce holders to believe that there will soon be an advance. Country brands of mess park are held at \$16 75. Bulk meats are dull, with nothing doing. Buyers are contending for a decline, and at a little less than our quotatious large sales could be made. The itemand for hacon on Southern account continues good, and the jobbers are kept busy in illing their orders. The market closed firm at 73/c for shoulders, 93/c for rip, 104/c for clear rib, and 103/c for clear rib.

Land would be taken a latterces, \$9,400 for latter, Bacon slices in request at \$9.80, but are held at \$9.800 lowers are held at \$7.800.

#### Exchange at Chicago.

The Democrat of Saturday says: The exchange market to-day has exhibited no new features. New York is firm at 2. a cent. premium for Missourl lumbs, and New Or leans remains quiet at 2.0.2, premium—no much doing lu cither. No discount and no paper offering. First class paper would in laken readily at fair rates. A very close discernmentation is made in currency, but the bestillinois and Wiscoush money is taken at the neutla rates.

## Crop Prospects.

The Plaquemine Gazette, of the 30th ul-The crops of cane and corn, we are told, we never facer, the vegetable garden never look more prospectous: the fruit trees are hangi overloaded with incipient fruit. Never have we in the country more cause for rejuicing that it the present time.

The Falls River (Point Coupee) Democrat, the 30th, says: the 30th, says:

The season, so far, has been one of the most favorable, hence the prospect of the cane is already very promising. In this parish the plant cane was well preserved through the winter, and is now coming up beantifully. The stubble also will be good.

Fruits of all kinds will be in abundance. The exuberance of the peach is such that on many trees the young peaches are growing in clusters of four and five together.
